## Cornelia Bryce Pinchot

### Informal Decorative

It is with the utmost pleasure that we offer you this magnificent dahlia for 1935. It will be a long time before the dahlia world will ever witness such a color and style in a flower. The color is burgundy wine—a rich, vibrant color, that as far as we know has not appeared in any dahlia. In size, it will rank with the very largest, and don't be surprised if it eclipses any known variety. The foliage is thick, dark green, and seldom bothered by insects. The bush is rather tall, and it is one of the most profuse varieties in the garden. This dahlia is a definite cross between Fort Monmouth and Jerome Kern, retaining all the excellent qualities of both, and adding quite a few of its own. It makes good roots that winter splendidly.

To prove its worth, we sent plants of it to different parts of the country. The following reports will carry out our belief in the greatness of this dahlia:

As usual, our very dear friend Mr. J. J. McCarthy of the Modern Dahlia Gardens, Milwaukee, Wisconsin, grew and exhibited it at innumerable shows, winning with it over great competition. It won the best seedling class at the Chicago World's Fair. Mr. McCarthy grew it next to Murphy's Masterpiece for the sake of comparison and found Cornelia Bryce Pinchot better.

Rev. Earl B. Moyer of the Seneca Dahlia Gardens of Parkersburg, West Virginia, who so kindly sent us the photo from which the accompanying cut was made, has this to say: "Did I succeed in growing Cornelia Bryce Pinchot as well as you do? It was the most outstanding striking bloom of any of the new ones we had here all season. Remember, this grew on the plant the grub almost killed in July. I built a box about it hoping it would root from a joint and this was the result. If it will come like this, you have one of the finest dahlias in the world."

Mr. J. J. White of Louisville, Ky., reports that it was the sensation of his famous garden, and Mr. T. M. Mossbarger of Chillicothe, Ohio, sends a very glowing report.

Mr. Derrill W. Hart in placing it on the 1935 Honor Roll in the House Beautiful-Home and Field magazine has this to say: "One of the richest dahlias in color I have ever seen. It is a glowing burgundy-red on a heavy, very deep flower. I saw it at Bryn Mawr in 1933 and had it on trial this year. It won as largest and best seedling at Chicago this year. At Easton it won as Best Seedling and at Bryn Mawr for the largest and best bloom."

It is named in honor of the wife of the Governor of Pennsylvania, a very lovely lady who is no less charming than this flower. Mrs. Pinchot is a great lover of flowers, and her beautiful estate at Milford, Pa., harbors every variety of flower, all under the personal supervision of this dynamic lady. Politics is not her only forte, for as a flower enthusiast she has first rank in the country. Her arrangements of cut flowers are little short of perfection and photographs of these have appeared in leading art magazines. We feel greatly honored for Mrs. Pinchot's consent to the use of her name for this beautiful flower.

**JERSEY'S DAINTY**—(Waite) St. C. A very apt name for a very beautiful flower. White, with faint pink shadings in the center. Nice foliage and stems and an easy dahlia to grow for a cactus variety. Highly recommended.

**JERSEY'S MAJESTIC**—(Waite) I. D. One of the largest of all dahlias. A pleasing blend of salmon, old gold, and rose, with magnificent dark foliage. One of the best for exhibition.

Root—\$3.50

Plant—\$1.75

**JEROME KERN**—(Veile & Mendham) I. D. We now come to the loveliest dahlia of all. We honestly believe there is no dahlia as beautiful as this one, and if we are to believe the reports received since its introduction three years ago, it is thought just as much of away from home as here. A gorgeous shrimp pink with gold shadings, its petals twisted and curled, on fine stems with excellent foliage . . . no wonder it won more prizes this year than any since its introduction. The Washburn Dahlia Gardens of Kokomo, Indiana, kindly sent us a photo of eight blooms of Jerome Kern that won a prize at the Indiana State Show. We are sorry that space does not permit us to reproduce this picture here for it is a photograph of great beauty. When we named this flower after Mr. Kern, the noted composer, we wanted to be certain that it would live as long as his melodies. 1934 will long be remembered for his loveliest tune, "Smoke Gets in Your Eyes," but it will also be remembered for the loveliest dahlia of all, Jerome Kern. See Illustration on Cover.

Roots—\$5.00

Plants—\$2.50

Plants only—\$5.00

**KENTUCKY RED**—(White) I. D. Dazzling red. There is no more vivid dahlia in cultivation. Exhibition size, with fine stems and foliage.

Root—\$1.50

Plant—\$1.00

**LADY MOYRA PONSONBY**—I. D. We cannot really describe the beauty of this lovely flower. It is by far the best yellow dahlia that we have ever grown. Very satisfactory in growth with very large flowers supported on fine stems. It has one fault, that of being a poor root maker.

Root (Stock limited)—\$5.00

Plant—\$2.50

**LAWRENCE TIBBETT**—(Meussdorffer) F. D. Frankly, the biggest disappointment of all of last year's novelties. It may be good on the Pacific Coast where it was originated, and possibly in the east, but as it grew for us, it certainly was not worth the \$25.00 per root asked for it.

Plants only—\$2.50

## General Information

**Order Early**—We cannot impress the fact too strongly to order early. Of the newer varieties the stock is naturally very limited, and a great deal of disappointment can be avoided. All roots sent out before March 15th are sent at the buyer's risk. Altho every precaution will be taken, they are not guaranteed against freezing.

**Terms**—Remittance with order on or before shipment. Retail orders are delivered prepaid. Wholesale orders, at the purchaser's expense.

**Shipping**—Orders are shipped as soon after April 1st as convenient unless otherwise notified. Green plants will be shipped on or around the 20th of May.

**Guarantee**—We guarantee every root and plant sent out by us to be true to name, and in a healthy condition when received, after which our responsibility ceases, as we have no control over growing conditions. We ask that you at once notify us if anything is unsatisfactory when received, or if any root or plant does not grow after planted a reasonable time.

**Substitution**—We do not substitute unless requested to do so, but would suggest naming a second choice.

**Name and Address**—Be certain to write name and address plainly.

**Green Plants**—We especially recommend the planting of green plants. For exhibition flowers, they are unrivaled.

Do not be discouraged if a dahlia from a different locality does not do well for you the first season. Try it again, as many varieties need to be acclimated.

If you do not see the variety listed that you want, write us, as we grow many dahlias the stock of which is too limited to list.

We also wish to call your attention to a new publication on the dahlia, the Mid West Dahlia News, published by Mr. D. O. Eldredge, 170 Talmadge Street, Madison, Wisconsin.
